

QUAILS' GATE

Okanagan Valley

2021 RIESLING ICEWINE

A true Canadian treasure, Icewine can only be produced when the temperatures plunge below -8°C (17.6°F) and the grapes naturally freeze on the vine. The resulting juice is lusciously sweet and balanced, with the vibrant acidity that British Columbia wines are known for.

WINEMAKING

Our small-lot production of Icewine was hand harvested overnight at -11°C on December 17th, 2021 at 44.7 Brix. Naturally frozen whole-clusters were pressed over a 14-hour period prior to being fermented in stainless steel for six weeks.

TASTING NOTES

This decadent, full-bodied wine opens with vibrant aromas of peach, apricot and honeydew followed by rich flavours of marmalade and peach on the palate.

PERFECT PAIRINGS

Serve chilled with fruit tarts, cheesecake, crème brûlée or a salty blue cheese.

Alc. by volume: 12%

Total acidity: 10 g/l

Residual sugar: 169 g/l

pH: 3.41
